

Key Stage Tutoring Online Safety Policy and Procedure

This policy has been developed in accordance with the principles established by The Children Acts 1989 and 2004 and related guidance including Keeping Children Safe in Education (2022).

The purpose of this policy statement:

Key Stage Tutoring works with children and families in providing private one-to-one or group tuition, both in-person and online. We strive to provide the highest level of safeguarding for all students, and acknowledge that the use of technology in private tuition can create new challenges and risks that children and young people could be exposed to.

The purpose of this policy and procedure statement is to:

- ensure that the safety and wellbeing of children and young people is paramount when tuition is being delivered via the internet
- provide staff and tutors with the overarching principles that guide our approach to online safety
- ensure that, as an organisation, we operate in line with our values and within UK law in terms of how we use online devices.

The policy statement applies to all staff, tutors, children and young people and anyone involved in Key Stage Tutoring's activities.

We believe that:

- children and young people should never experience abuse of any kind
- children should be able to use the internet for education and personal development, but safeguards need to be in place to ensure they are kept safe at all times.

We recognise that:

- the online world provides everyone with many opportunities; however it can also present risks and challenges
- we have a duty to ensure that all children, young people and adults involved in our organisation are protected from potential harm online
- we have a responsibility to help keep children and young people safe online, whether or not they are using Key Stage Tutoring's network and devices

- working in partnership with children, young people, their parents, carers and other agencies is essential in promoting young people's welfare and in helping young people to be responsible in their approach to online safety
- all children, regardless of age, disability, gender reassignment, race, religion or belief, sex or sexual orientation, have the right to equal protection from all types of harm or abuse.

We will seek to keep children and young people safe by:

- appointing an online safety coordinator, who also acts as our Designated Safeguarding Lead
- providing clear and specific directions to staff and volunteers on how to behave online through our staff code of conduct
- supporting and encouraging the young people using our service to use the internet, social media and mobile phones in a way that keeps them safe and shows respect for others
- supporting and encouraging parents and carers to do what they can to keep their children safe online
- developing an online safety agreement (see terms and condition) for use with young people and their parents or carers
- developing clear and robust procedures to enable us to respond appropriately to any incidents of inappropriate online behaviour, whether by an adult or a child or young person
- reviewing and updating the security of our information systems regularly
- ensuring that user names, logins, email accounts and passwords are used effectively
- ensuring personal information about the adults and children who are involved in our organisation is held securely and shared only as appropriate
- ensuring that images of children, young people and families are used only after their written permission has been obtained, and only for the purpose for which consent has been given
- examining and risk assessing any social media platforms and new technologies before they are used within the organisation.

If online abuse occurs, we will respond to it by:

- having clear and robust safeguarding procedures in place for responding to abuse (including online abuse)
- providing support and training for all staff and volunteers on dealing with all forms of abuse, including bullying or cyberbullying, emotional abuse, sexting, sexual abuse and sexual exploitation
- making sure our response takes the needs of the person experiencing abuse, any bystanders and our organisation as a whole into account
- reviewing the plan developed to address online abuse at regular intervals, in order to ensure that any problems have been resolved in the long term.
